SITUATION SUMMARY

National News – Significant Events

New York City Police Officer Dead in Shooting

(ABC) An NYPD officer has died after being shot in East Harlem Tuesday night responding to a report of a shooting, authorities said at a press conference. Officials said that the five-year-veteran housing officer -- identified as Randolph Holder, 33, a native of Guyana -- was responding to a report of a shooting near 102nd Street. After that he approached a group near a footbridge on the FDR Drive and a chase followed. One of the members of the group was on a bicycle. Near 120th Street the officer was shot in the forehead. Another gunshot victim, believe to be the suspect, was discovered at 125th Street. The person was taken with a leg wound to New York Hospital. A weapon and the bicycle were recovered. The officer was rushed to Harlem Hospital in critical condition but later died. Holder was not married. His father and grandfather were both police officers in Guyana, NYPD Commissioner Bill Bratton said. "When the call comes, he ran to a danger. It was the last time he will respond to that call," Bratton said at a press conference. "Our hearts are heavy, and we offer our thoughts and prayers to his family," New York City Mayor Bill de Blasio said.

International News – Significant Events

Koppu leaves behind trail of destruction in Philippines

(BBC) Tropical Storm Koppu is heading away from the Philippines' main island of Luzon, leaving behind a trail of devastation in the country's crucial farming region. At least 39 people were killed as heavy rains triggered flooding and landslips, and toppled walls and trees. More than 100,000 villagers remain in evacuation centers. The government is holding an emergency meeting to decide whether additional rice imports will be needed. The meeting had already been scheduled for next week to try to prepare for drought which predictions suggest could be induced by the El Nino severe weather system. But an official from The National Food Authority (NFA) told Reuters news agency the meeting would be held this week, after some 400,000 tons of paddy rice was destroyed by Koppu. Koppu is now over the Balintang channel north-west of Luzon and has weakened to a tropical depression, the disaster management agency said, and the weather is improving. However, the storm dumped some 130cm (4ft 3in) of rain which is still subsiding and tens of thousands of people remain in shelters - some with no remaining homes to return to. Disasters management spokesperson Romina Marasigan told the press 194,387 families or 907,267 persons had been affected by the typhoon. The official death toll stands at 26, but officials told Associated Press news agency that 39 people had died, while a tally conducted by AFP suggests the number is 47. In the Luzon farming region, flooding took many lives, while landslides claimed more in mountainous areas. The disaster agency has estimated the value of the damage to agriculture and infrastructure at 6.6bn Philippine pesos (\$141m; £92m). Koppu is the second strongest of 12 storms to hit the archipelago this year. In 2013, Typhoon Haiyan tore through the Philippines, causing major destruction and leaving more than 7,300 people dead or missing.

SITUATION SUMMARY

Knights Landing Community Services District Well Failure, Yolo County

- Per Cal OES IDO: Knights Landing Community Services District (CSD) reported a well failure on 10/12/15. This follows a separate well failure several weeks ago. The CSD is now operating on one well. In support of Yolo County and the CSD, Cal OES is coordinating with State Water Board to investigate funding sources to support repairs.
- Yolo County EOC Activated at Level 2 beginning 0900 on 10/13/15 in support of Knights Landing CSD Well Failure.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A broad area of high pressure will maintain mostly dry and warm conditions across northwest California through the work week. Overnight and morning clouds with patchy areas of drizzle can be expected near the coast.

Medford Weather:

An upper level ridge is in place over the region today but will gradually shift east late in the day as a weak shortwave trough moves towards the area. The ridge pattern will result in warm daytime temperatures over the area and continued dry weather.

Reno Weather:

High pressure returns to the region, bringing dry weather and generally light winds for the next few days. Temperatures will be near or slightly below average through Friday, then warm up slowly by the weekend. Low pressure may bring a chance of rain back to the region by the middle of next week.

San Francisco Weather:

An upper level high pressure ridge extends over the eastern pacific and west coast. The ridge will weaken somewhat today as a weak impulse moves across on Thursday. This will bring cooler temperatures to the area as well as locally breezy conditions in the hills.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Warm and dry weather continues this week. Locally breezy north winds will remain across portions of the Central Valley into Thursday.

Hanford Weather:

Mostly clear skies with a gradual warming trend over the next several days as high pressure invades the area. High clouds on Thursday through the region as a weak trough brushes by.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Offshore flow will bring mostly clear skies and a warming trend through tomorrow. A return of onshore flow will result in cooling and a possible return of low clouds and fog for parts of the coastal plain on Thursday. Warmer weather will likely return by the weekend as a weak ridge of high pressure develops.

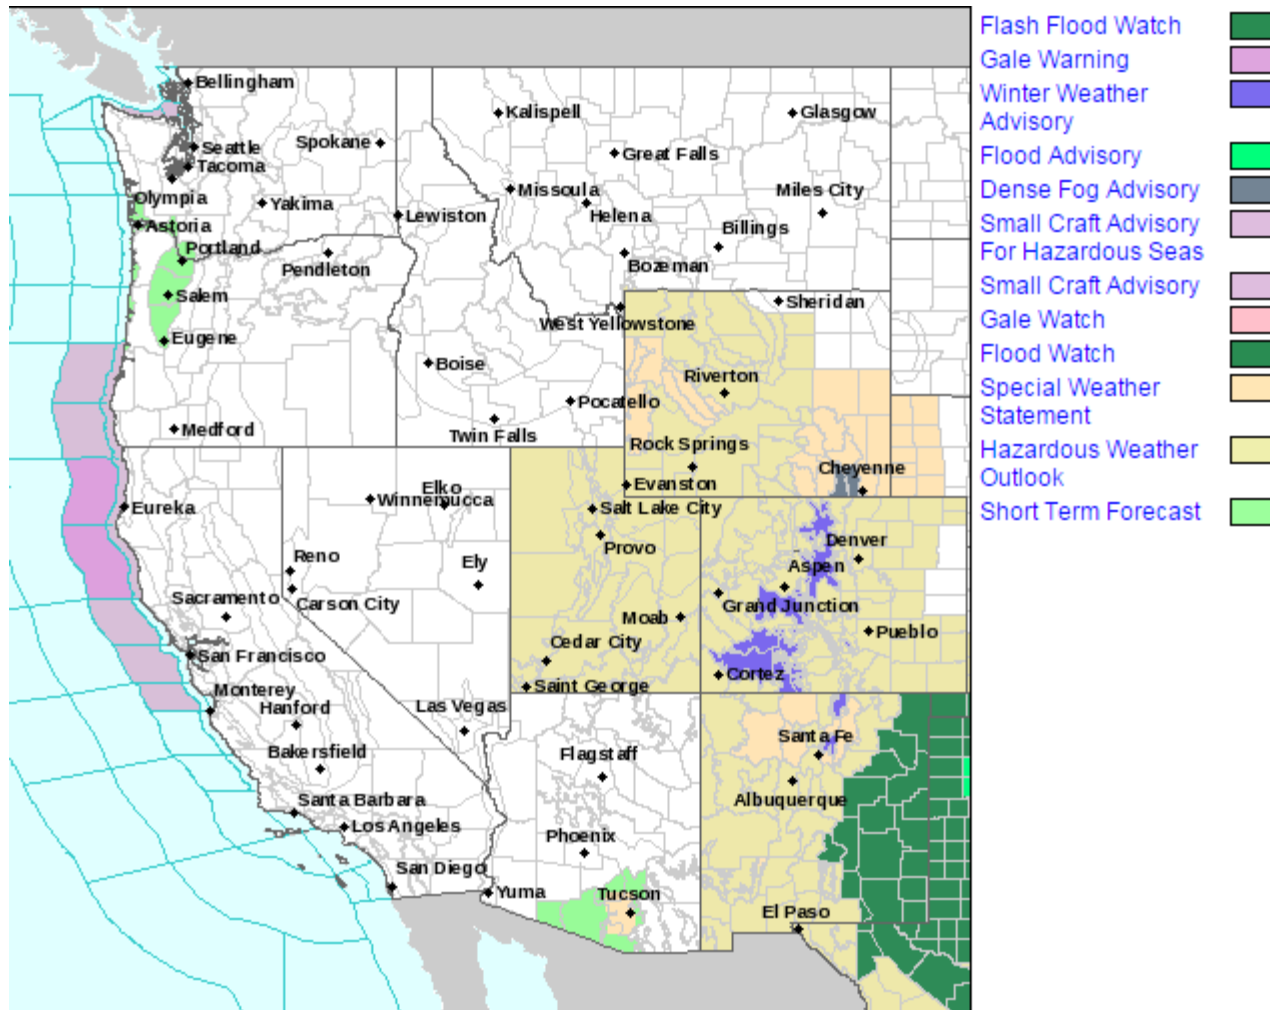

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A low pressure system will move east into Arizona today which will bring warmer and drier weather and a northerly offshore flow. Expect night and morning low clouds tonight and Thursday nights west of the mountains. This weekend high pressure building over the west coast will bring yet another warming trend with high temperatures expected to be about 10 degrees above normal for this time of year. Mild weather with weak onshore flow will continue through early next week.

Southeast California Weather:

A deep area of low pressure centered over Arizona will gradually shift to the east during the day on Thursday. Until then elevated chances of showers and thunderstorms will be present over the eastern half of Arizona. Much cooler air today and Thursday will result in temperatures well below normal but a gradual warmup will occur going into the weekend. Drier conditions will set in across the region by Friday and lasting well into next week under mostly clear skies.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
